CTEK partners with Rexolution to provide smart, secure EV charging for property owners

CTEK, the leading global brand in vehicle charging solutions, has partnered with Swedish intelligent energy specialist Rexolution to deliver a broadened range of electric vehicle (EV) charging solutions for property owners throughout Sweden.

State-of-the-art EV chargers and equipment from CTEK, will become an integral part of Rexolution, a comprehensive service for electric car charging, solar energy and energy efficiency from Rexel Sverige AB.

Rexolution offers an end-to-end service to support property owners of all kinds get started with EV charging, from establishing the charging requirements of a property's tenants and visitors, through the installation of chargers, to provision of software, service, support and maintenance. Rexolution also works with property owners to calculate potential earnings from EV chargers and advise on how to turn the installation of chargers into a profitable investment.

Peter Görtzen, Director Wholesale for CTEK said: "We are delighted to be partnering with Rexolution to support the roll out of smart, flexible EV charging solutions for property owners. Rexolution stands for smart service development, and CTEK for cutting-edge technology that has flexibility and simplicity at its heart. Both companies have a deep commitment to supporting the transition to a sustainable, greener future, and we are delighted to be working together to drive this forward.

Anna-Karin Lindblom, Head of Digital services and Innovation for Rexel Sweden, said: "CTEK has well-proven products, a strong brand and is at the forefront in e-mobility. With CTEK in our range, we will be able to offer increased flexibility and greater choice of EV charging hardware, ensuring speedy, top quality installations for property owners choosing the Rexolution service. Many installers already work with CTEK and are familiar with CTEK's state-of-the-art Chargestorm Connected 2 chargers. Through this new partnership, property owners can be assured of the safest, most flexible and best charging options, all backed by outstanding customer service."

As early as 2030, according to figures from Rexolution, there will be just over 2.5m electric and charging hybrid vehicles in Sweden according to Bil Sweden. The need for charging will therefore increase significantly, and EV chargers are needed at home, at work and in more public places.

Notes to Editors

About CTEK

- Established in Dalarna, Sweden, CTEK is the leading global brand in battery charging solutions, most specifically vehicle charging.
- CTEK offers products ranging from 12V and 24V battery chargers to charging solutions for electrical vehicles. CTEK's E-mobility solutions range from individual EV chargers to larger corporate and commercial installations with multiple charging stations, that require load balancing and integrate seamlessly with monitoring and payment equipment.
- CTEK's products are sold via a carefully selected network of global distributors and retailers: as original equipment; supplied to more than 50 of the world's leading vehicle manufacturers; and through charge point operators, property owners and other organisations/individuals providing EV charging infrastructure.
- CTEK takes pride in its unique culture based on a passion for innovation and a deep commitment to supporting the transition to a greener mobility, by adhering to industry leading ESG standards.

About Rexolution

- Rexolution's goal is to drive sustainable development and solve the environmental equation, while at the same time increasing customer and business benefits. As well as EV charging, Rexolution also provides energy efficient lighting, solar energy and energy storage solutions.
- Rexolution is a service from Rexel Sverige, part of the Rexel Group, a worldwide expert in the professional multinational distribution of products and services for the energy world. Rexel Group's mission is to offer customers worldwide innovative and sustainable solutions to improve the comfort, security and energy performance of installations, infrastructure and buildings.
- Rexel Group has its head office in Paris, France. Rexel Sweden is part of Rexel Group and has its head office in Stockholm, with 50 local offices throughout Sweden.
