

FOR OUR VALUED CUSTOMERS:

SMARTLY DESIGNED ACCESSORIES THAT PROMOTE USEABILITY, SAFETY, SIMPLICITY AND ADDITIONAL FUNCTIONALITY

CONNECT

Our products are designed and developed to be as simple as possible to use. All CTEK chargers (with output of up to 7A) are supplied with our custom quick connector.

INDICATOR

INDICATOR is the easiest way to monitor the charge in your battery. An accurate reading for your battery is displayed two hours after you've used your vehicle.

RED means the battery charge is below 12.4 V. It's definitely time to charge the battery.

YELLOW means the battery charge is between 12.4 and 12.65 V. It's time to start thinking about charging the battery.

GREEN means the battery charge is more than 12.65 V. OK! No need for charging.

ACCESSORIES

INDICATOR - Eyelet

Indicator - Eyelet M6 and M8 use a simple 'traffic light' system to show the state of charge of your battery. With Indicator - Eyelet you have a permanent installation. Should charging be required plug in the CTEK charger and charge the battery.
Cable length 500 mm.

Current drain: 1,5mA
Current drain/month: 1,1Ah

Eyelet M6	56-629
Eyelet M8	56-382

INDICATOR - Cig Plug

Indicator - Cig Plug is a combined quick connector and indicator for easy charging. Perfect for checking status and charging the battery through the vehicle 12 V socket. Suitable for all 12 V CTEK chargers up to 7 A. Indicator - Cig Plug is a universal model that fits both 12 mm and 21 mm sockets.

Current drain: 1,5mA
Current drain/month: 1,1Ah

Part no. 56-870

Note: Socket must be powered even when ignition is in "off" position.

INDICATOR - Clamp

Indicator - Clamp uses a simple 'traffic light' system to show the state of charge of your battery. Easy to move between vehicles, - ideal for workshops and showrooms. Should charging be required the cap can be removed from the unit and a compatible CTEK charger plugged in to restore the battery to fully charged status.
Cable length 1.5 m.

Current drain: 1,5mA
Current drain/month: 1,1Ah

Part no. 56-384

INDICATOR - Panel

Indicator - Panel uses a simple 'traffic light' system to show the state of charge of your battery. Available in two cable lengths, 1.5 m and 3.3 m. No cables are included in the Indicator - Panel with flat pin connection.

Current drain: 1,5mA
Current drain/month: 1,1Ah

Panel M8 (1.5 m)	56-380
Panel M8 (3.3 m)	56-531
Panel (Flat Pin)	56-562

CONNECT - Eyelet

Connect - Eyelet is a handy accessory that enables you to charge batteries that are in hard to reach places or where using clamps is inconvenient or impossible. Connect - Eyelet is easy to fit, splash proof and dust proof. 400 mm cable length. Compatible with all CTEK chargers up to 10 A.

Eyelet M6	56-260
Eyelet M8	56-261
Eyelet M10	56-329

CONNECT - Cig Plug

Connect - Cig Plug is an easy to fit adapter that allows charging from a CTEK compatible charger through the 12 V cigarette lighter or accessory socket. 400 mm cable length. Compatible with all CTEK chargers up to 10 A.

Part no. 56-263

Note: Socket must be powered even when ignition is in "off" position.

CONNECT - Cig Socket

Connect - Cig Socket is a useful accessory that increases the usage of the CTEK Connect battery connector. When the CONNECT - Cig Socket has been connected, it allows you to use GPS, mobile phones, handlebar heaters and heated clothing etc. 1 m cable length.

Part no. 56-573

CONNECT - 2.5M Extension Cable

Useful extension cable which allows any CTEK charger up to 10 A to be connected to other accessories such as clamps or quick connectors (Comfort Connect). Handy when charger has to be placed some distance from the battery. 2.5 m cable length.

Part no. 56-304
