## **CTEK CT5 TIME TO GO charger scoops Autobild Product of the Year Award**

CTEK, the leading global brand in vehicle charging solutions, is celebrating after scooping a prestigious Product of the Year Award from leading German car magazine, [Autobild](#).

Autobild's jury of experienced testers chose CTEK's CT5 [TIME TO GO](#) charger as Product of the Year in the workshop equipment category, saying: "The CT5 TIME TO GO is a reliable helper. It does its job very well with simple operation and a wide range of functions."

This success follows on from the CTEK CT5 TIME TO GO being named Test Award Winner in Autobild's independent charger test in September this year. Rated against products from another seven brands, the CT5 TIME TO GO scored maximum points in the quality test stages while racking up an impressive 428 out of 460 points overall across 23 different test stages covering build quality, ease of use, functionality, performance and quality.

Gary Brown, Product Manager for CTEK said: "We are really proud to have won this award from Autobild. It is further testament to the unrivalled technology contained within the CT5 TIME TO GO, as well as its safety and useability in meeting the needs of today's motorists.

"Receiving this award is a lovely early Christmas present for all of us at CTEK! In fact, if you're still looking for that last minute Yuletide gift, the CT5 TIME TO GO is the perfect choice for the car lover in your life, and there's still time to order and get it in time for Christmas!"

The CTEK CT5 TIME TO GO charges, conditions and maintains all types of 12V lead-acid batteries including maintenance free types and all chemistries including Wet, Calcium, GEL, AGM and EFB – the last two types fitted to Start Stop vehicles. As with all CTEK products, the CT5 TIME TO GO is fully automatic, foolproof to connect, spark proof and reverse-polarity protected for user safety, and comes with a free 5 year manufacturer's warranty.
